## Short Description

TravelSpend is an app for iOS and Android to track your spending while traveling the world. It's perfect for you if you are planning your next trip or are already on vacation. If you travel in a group you can share expenses with friends and family to see “who owes who.”

## Key Features

### **Easily add expenses on the go**

Adding new entries in TravelSpend is quick and easy. It works offline and foreign currencies are converted automatically.

### **Stick to your trip budget**

Keep track of your travel budget and all your expenses. This will help you cut your costs and save money.

### **Gain insights from your spending**

Your spending data is visualized. Analyze your expenses and avoid overspending.

### **Share & Sync**

Invite your family & friends to keep track of your expenses together and see who paid for what.

### **Split Costs**

Share your trip with your partner or a group of friends and keep track of who owes whom. Split bills, check your balances and settle debts all within TravelSpend

### **Follow your expenses on a map**

You can link places and your expenses will be displayed on a map.
